ABOUT EVENT:-To create a useful working model using scraps material.

Details:In junkyard, you have to bring out the beauty in the beast.This is the closest you could possibly get to actually performing magic. Junkyard will test your ability to make use of every resource available in an optimized manner under time constraint. All that you need to have is some ?jugaad? From ?kabaad?. So, put on your hat of creativity, get ready to dirty your hands and let the construction of Trash Begin!!

Each levels will be linked with each other.

Levels:-

Level 1-quiz round.

Levels-2 All the members of the team need to collect materials required for the task given and complete the task

Level-3some materials will be provided to each group and they have to use their creativity and build something interesting with those scraps.
